- Haga-Haga Resort

HIKING TRAILS

WILD COAST MEANDER

The area that the hike covers is a nature lover's paradise, with access so limited that the only way to see the majority of the coastline is to hike. You will encounter long lonely beaches, river estuaries teeming with marine life, river fauna, majestic views. Experience peaceful tranquility that is unsurpassed.

WILD COAST AMBLE

This exiting hiking trail along the southern section of the Cape Wild Coast takes you along a beautiful coastline over headlands and along sandy beaches with breathtaking views. Enjoy a wide variety of bird & marine life whilst collecting shells along pristine stretches of beach. The terrain is moderate and the distance covers 56km over the 5 days. Each night you will be comfortably accommodated at unique venues along the way.

STRANDLOPER

The trail covers long stretches of beaches, walking over headlands and rocky sections. The distance is 55.5km from Kei Mouth to Gonubie along the coastline.

WILD COAST PONDO WALK

This 5 night, 4 days hiking trail along the northern wild coast is a true wilderness trail. The northern region is rugged, with towering cliffs, deep ravines, pristine little bays, forest and spectacular waterfalls, because of the remoteness of this section, you cannot walk from one hotel to the next. Accommodation is therefore provided at one resort, Mbotyi River Lodge. Hikers walk for 4 days, with a day pack only, along different scenic routes, accompanied by a trained local guide. Relax nightly in the comfort of this beautiful new resort, with your every need catered for.
